PROFILE

A dedicated and disciplined undergraduate of Computer Science at the Kwame Nkrumah University of Science and Technology, with a consistent record of academic excellence and demonstrated leadership across school, church, and community settings. Possesses a proven ability to lead teams, mentor peers, and coordinate educational and service initiatives toward shared objectives. Brings practical capability in programming, problem-solving, and technology development, applied across academic projects and professional engagements. Recognised for discipline, sound communication, teamwork, and the capacity to inspire collective effort. Committed to continuous learning and to applying both leadership and technical capabilities toward meaningful contributions in academic, professional, and community environments.

EDUCATION

Kwame Nkrumah University of Science and Technology (KNUST) — *Kumasi, Ghana*
BSc Computer Science | First Class Honours (in view)
January 2024 – 2027 (expected)

Osei Kyeretwie Senior High School — *Kumasi, Ghana*
General Science | WASSCE Aggregate 8 | Top 10% of Graduating Class
March 2021 – September 2023

ACHIEVEMENTS

Male Programmer of the Year, 2024/2025 Academic Year
Department of Computer Science, Kwame Nkrumah University of Science and Technology
Recognised with a certificate, medal, and plaque for outstanding programming capability and technical excellence over the academic year.

Fourth Place, "Future of Work" West African Hackathon
BeTechConnected | University of Ghana, Legon | 21st March 2025
Competed as Lead Developer of Team PixyChain, a three-member team, in a Web3-focused hackathon themed around decentralisation, with participants drawn from across West Africa. Led the development of a Flutter-based platform enabling entrepreneurs to pitch innovative ideas for board review and investor funding, with an integrated mechanism connecting scholarship applicants to willing sponsors.

Historic Quarter-Final Qualification, National Science and Maths Quiz (NSMQ)
Osei Kyeretwie Senior High School | 2022 and 2023 Editions
Led the school's team to the quarter-finals of the National Science and Maths Quiz for the first time in the institution's history, and successfully replicated the feat in the subsequent edition under continued tenure as Quiz Prefect.

PROJECTS / RESEARCH EXPERIENCE

ElevateHub – AI-Powered Examination and Interview Preparation Platform
November 2025 – January 2026
Conceptualised and co-developed ElevateHub, a fully AI-powered learning platform deployed at https://elevatehub.guru. The system enables students to upload their lecture slides and instructional materials and

automatically generates targeted preparation questions through an integrated AI engine, supporting examination, interview, and assessment readiness. Beyond solo practice, the platform offers collaborative quiz rooms through which students convene peers to attempt the same generated question set in real time. Initiated the project as conceptual lead and contributed to product design and development in React, in partnership with Dr. Fredrick Ayivor, who led the core technical implementation.

Full-Stack Point of Sale (POS) System with PIXA AI Assistant
March 2026 – April 2026
Independently designed, developed, and deployed a full-stack Point of Sale system featuring PIXA, an embedded AI assistant powered by the OpenAI API to support natural-language sales queries and operational guidance. Implemented the backend in Python using the Flask framework, rendered the user interface with HTML, CSS, and Jinja2 templating, and persisted data on PostgreSQL hosted on Render. Deployed live at https://sales-manager-rb3h.onrender.com. Source code available at https://github.com/FrimpongMauricious/point-of-sales.

Koinonia – Christian Knowledge-Sharing Mobile Application
February 2026 – June 2026 (expected)
Serving as sole developer of Koinonia, a Christian knowledge-sharing mobile application currently under active development and scheduled for launch in June 2026. Architected the backend in Spring Boot with PostgreSQL persistence, and designed the system around secure authentication and structured content management. Source code available at https://github.com/FrimpongMauricious/KOINONIA.

AgriHub – Full-Stack Agricultural Marketplace
February 2026 – March 2026
Served as Project Manager for AgriHub, a full-stack agricultural marketplace built by a departmental team. Coordinated planning, task allocation, and stakeholder communication across the development cycle. The platform was implemented with HTML and CSS on the client, integrated WebSockets for real-time interaction and Paystack for payment processing, and is hosted at https://backend-mkvk.onrender.com. Frontend source: https://github.com/AgriHub-group32/frontend.

ApexLearn – Mobile Learning Platform
July 2025
Served as lead engineer on ApexLearn, a mobile learning platform styled after leading e-learning services, through which subject-matter experts publish learning content and students consume and track their progress. Led frontend and user experience implementation in React Native, managed system maintenance, testing, and hosting, while supporting backend integration built in Spring Boot. Source code available at https://github.com/FrimpongMauricious/group37ApexLearn.

PROFESSIONAL DEVELOPMENT & TRAINING

Google IT Support Professional Certificate
Google | Issued via Coursera | 17th May 2025
A five-course professional certification developed by Google to prepare candidates for entry-level roles in IT support. The programme comprises Technical Support Fundamentals; The Bits and Bytes of Computer Networking; Operating Systems and You: Becoming a Power User; System Administration and IT Infrastructure Services; and IT Security: Defense Against the Digital Dark Arts. Covers foundational competencies in troubleshooting, customer service, networking, operating systems, system administration, and information security. Sponsored by Mentor Me Collective. Credential verifiable at coursera.org/verify/professional-cert/6Y9GPE06SMQB.

AI 150: Fundamentals of Responsible Artificial Intelligence (AI) for All

KNUST Artificial Intelligence Coordinating Office, Kwame Nkrumah University of Science and Technology | 14th March 2026

Completed an institution-wide programme on the foundational principles, ethics, and responsible application of artificial intelligence. Signed by the Vice-Chancellor, Prof. (Mrs.) Rita Akosua Dickson, and the AI Courses Coordinator, Prof. Eric Appau Asante. Credential reference: FHHGdlGlFG.

Cloud Computing Fundamentals

IBM SkillsBuild | 1st February 2026

Completed a foundational training programme covering cloud computing concepts, architecture, and service models. Credential reference: PLAN-2EC3A305F2C3.

Python and Machine Learning Bootcamp

DevTown, in association with Google Developer Student Clubs, GIET University | 19th April 2024

Successfully completed an intensive seven-day bootcamp on Python programming and machine learning fundamentals. Credential verifiable at cert.devtown.in/verify/ZFJXDK.

The Complete C & C++ Programming Course: Mastering C & C++

Sara Academy | Issued via Udemy | 19th September 2024

Completed a 4.5-hour course on the fundamentals and advanced concepts of C and C++ programming. Credential verifiable at ude.my/UC-f9aae5bb-3cbd-4429-9aeb-3c3469f29f12.

LEADERSHIP EXPERIENCE

Project Coordinator — *Claude Builder Club, Kwame Nkrumah University of Science and Technology*
February 2026 – Present

Serve as a member of the club's executive leadership — led by the Ambassador and supported by the Secretary, Financial Secretary, and allied officers — with direct responsibility for coordinating the planning, organisation, and execution of all club projects and events for a membership exceeding eight hundred students. Oversee the delivery of hackathons, technical seminars, workshops, and allied programmes, managing logistics, stakeholder engagement, and cross-functional team coordination from conception through execution. Spearheaded the organisation of the Claude Hackathon, the largest Claude-themed hackathon held in Ghana in April 2026, which convened students across all departments to build deployable technology solutions, with standout projects receiving funding support from Anthropic toward market deployment.

EMEAI Track Lead — *Mentor Me Collective Scholarship Programme*
February 2025 – May 2025

Appointed to lead over fifty scholars on the Europe, Middle East, Africa, and India (EMEAI) track of the Mentor Me Collective scholarship programme during its three-month run. Convened and chaired weekly track meetings, maintained attendance records, and reported scholar engagement to the programme coordinators. Served as the primary liaison between scholars and coordinators, and provided sustained guidance to ensure timely completion of coursework and projects. Addressed scholar concerns, resolved programme-related issues, and fostered an engaged, accountable, and mutually supportive learning community across the track.

Mentorship Committee Organiser — *Computer Science Society (CSS), Department of Computer Science, KNUST*
January 2025 – September 2025

Served under the 2024/2025 CSS Administration, coordinating the Department's mentorship programme to facilitate academic guidance, knowledge transfer, and professional development support between senior and incoming members of the Department. Designed and administered a structured pairing process by circulating Google Forms to prospective senior mentors to capture availability and areas of expertise, and leveraged the

departmental database of admitted Computer Science students to pre-assign mentor–mentee pairings ahead of the freshers' arrival. Formally recognised with a Certificate of Appreciation signed by the CSS President (Mr. Kelvin Takyi Andzie), the Head of the Department of Computer Science (Prof. Michael Asante), and the CSS Patron (Dr. Dominic Asamoah).

Welfare Head — *KNUST Pentecost Students and Associates (PENSA), Off-Campus District D*
January 2025 – Present

Lead the welfare portfolio of Off-Campus District D under KNUST PENSA, with responsibility for attending to the material, emotional, and pastoral needs of members within the district's jurisdiction. Coordinate the provision of food assistance, counselling, and allied welfare support to members in need, liaising with the mother church to secure resources where appropriate. Serve as a first point of contact for members facing personal, academic, or financial challenges, ensuring timely and dignified intervention.

Sunday School Teacher — *The Church of Pentecost, Ahwerewah Local, Mpatuam District*
2020 – Present

Entrusted by parents of the congregation with the Christian formation of their wards, delivering weekly lessons that nurture spiritual, moral, and character development in children and young people. Plan and deliver age-appropriate biblical instruction, facilitate scripture memorisation, and mentor pupils in values-based living. Have sustained this position of responsibility for over six years, demonstrating consistent commitment, reliability, and pastoral care to the local assembly.

Quiz Prefect — *National Science and Maths Quiz (NSMQ) Team, Osei Kyeretwie Senior High School*
2022 – 2023

Appointed to lead the school's NSMQ contingent, with formal responsibility for the training, coordination, and discipline of the team over two consecutive editions. Administered annual aptitude tests to identify and recruit incoming first-year students with quiz potential, ensuring a continuous pipeline of capable contestants. Drove the school's historic qualification to the quarter-finals of the NSMQ for the first time in its history, and successfully replicated the feat in the subsequent edition under continued tenure.

WORK EXPERIENCE

Chief Technology Officer — *Lobi (a subsidiary of Natura Corporation)*
North Legon, Accra, Ghana
March 2026 – Present

Serve as Chief Technology Officer of Lobi, a ride-hailing platform under the Natura Corporation group, with overall responsibility for the technical architecture, engineering execution, and product delivery of the company's core mobility application. Lead a cross-functional engineering team of five, overseeing recruitment of technical staff, allocation of deliverables, and adherence to project timelines. Architected the product's technology stack around React Native for mobile client development, Spring Boot for backend services, Python for ancillary tooling, the Google Maps Platform for geolocation and routing, and Paystack for payment orchestration. Additionally maintain the Natura Corporation corporate website (naturacorporation.com), ensuring its continued availability, relevance, and alignment with the group's brand identity.

Software Development Intern (Industrial Attachment) — *Amansie West District (CCP) Cooperative Cocoa Farmers Mutual Support and Social Service Scheme*
Manso Antoakrom, Ashanti Region, Ghana
September 2024 – November 2024

Completed a formal industrial attachment with the Amansie West District Cooperative, contributing to the enhancement of the institution's software systems and operational efficiency. Utilised Python, React Native, and

Flutter to maintain and extend the organisation's core systems, and played a key role in the implementation of banking software that strengthened financial management processes, ensuring accurate transactions and reliable record-keeping. Worked collaboratively with the internal team to apply software development principles to real-world organisational challenges, consistently meeting project deadlines and delivering tangible improvements. Formally commended by the Manager, Mr. George Assiamah, in a signed letter of recommendation dated 28th October 2024.

VOLUNTARY / EXTRA-CURRICULAR ACTIVITIES

Volunteer BECE Tutor (Mathematics and Integrated Science) — *Ahwerewah District Assembly Junior High School*
2021 – 2026
Initiated and sustained a voluntary BECE preparation programme for third-year Junior High School candidates at Ahwerewah District Assembly Junior High School, in response to a persistent shortage of teaching staff at the school. Returned to the institution as an old student and community contributor to deliver dedicated tuition in Mathematics and Integrated Science to cohorts of over forty candidates each year, across every vacation period for five consecutive years, without drawing any form of remuneration from the school. The programme has coincided with a sustained improvement in the school's BECE performance over the period of engagement, reflecting measurable impact on student outcomes and on the academic standing of the community.

Voluntary Python Content Creator — *YouTube*
2024 – Present
Develop and publish tutorial content on the Python programming language, directed at fellow student developers and entry-level practitioners. The channel (youtube.com/@MAURICIOUSFRIMPONG) serves as an open-access educational platform through which foundational and intermediate Python concepts are communicated in accessible, project-oriented form.

SKILLS & COMPETENCIES

Technical Skills

- **Programming Languages:** Python, C, C++, Java, Dart, JavaScript
- **Frontend Development:** React, React Native, Flutter, HTML, CSS
- **Backend Development:** Spring Boot, Flask (Python)
- **Databases:** PostgreSQL, MySQL
- **Cloud & Deployment:** Docker, Render, Cloud Computing Fundamentals (IBM SkillsBuild)
- **Payment Integrations:** Paystack, Hubtel
- **APIs & Integrations:** Google Maps Platform, OpenAI API, WebSockets
- **Developer Tools:** Git, GitHub
- **Domain Knowledge:** Artificial Intelligence Fundamentals, Machine Learning Fundamentals, IT Support and Systems Administration, Information Security, Networking

Languages

- **English:** Fluent
- **Twi:** Native
- **French:** Intermediate

Soft Skills

- Leadership and team coordination

- Project management and delivery
- Mentorship and knowledge transfer
- Written and verbal communication
- Problem-solving and analytical thinking
- Stakeholder engagement and cross-functional collaboration
- Initiative and self-direction
- Time management and accountability
